The Bunker Years (CD, 2019, St.An.Da. 1917, €12) — *a very strong collection of works, inspired by the idea of existing in a bunker as protection and autonomy zone, building an existential boundary, 'a refuge from the outside world, from its rules and its conditioning'... the material here is characterized through it's weighty sound strokes, the almost unbearable tension, the use of field- and object recordings; massive post industrial and drone with philosophic approach, excellent all around!! Highly recommended!*

Faraway from Light (CD, 2016, Luca Sia 014 / Show Me Your Wounds Prod. , €13) — *intense work based on field recordings made in the Teufelsberg towers in Berlin, this place with incredible history and the resonances of the empty buildings served as inspiration and concrete sound basis, the central track "The Addiction" moves into multi-layered drone noise and back to the pure bleak groaning and squeaking of the materials, before it all collapses in sheer metallic noise.. - lim. 190 copies digipak*

Raw Science (CD, 2016, Sonic Boundaries sb002, €10) — *ASCIANO BORGA from Rome has build a nice collection of works in the last 10 years, this new album "Raw Science" must be his most sophisticated so far: experimental / industrial ambient / 'archaic drone' compositions with many layers and sounds used, inspired by alchemical and medieval esoterism (HIERONYMOUS BOSCH on cover), very dense and heavily processed... absolutely to discover! 4 long tracks, 59+ min, 6 panel digipack 100 copies made*

March, 2014, in the province Lucca in Tuscany: sounds of crackling fire, people & children gathered around it, the frying of oil on the fire and firewood were used and processed to create a somehow intimate composition of mysterious concrete sounds, with strange smackling and gurgling overtones... very special! lim. 200 full colour cover with art card*

Palsecam (LP, 2023, Aposiopese APO 017, €20) — *SENSUAL but RAW tracks with material from old VHS tapes, mixed with the mechanical OBJECT sounds from the VHS players itself, very original stuff, our highest recommendation! - *The result is a complication of inside and outside sounds: distant, gesturing snippets of semi-remembered, half-imagined films compete with TV cathode burn, tracking stutters, mechanical interference, and vérité whirrs and clicks that could only come from that original reproducer of dreams, the VHS player..**

Bourbonese Qualk (CD, 2022, Klanggalerie gg414, €15) — *Industrial Music as a way of protest ! -> like almost no other band from the 80's / 90's, B.Q. used art forms as an authentic political tool of resistance...this is the re-issue of their self-titled album from 1987 with few bonus tracks - "They saw their music as a revolutionary cultural force - a belief that radical musical forms must be part of positive social change. Frown (CD, 2014, Attenuation Circuit ACU 1001, €10) — *after almost hundreds of CD-R releases this is the very first "fabric pressed" CD of this very open-minded German label, with new recordings by EMERGE => "Frown" is a rumbling dark drone journey in three parts that seems to go deeply into the abyss, into a underground mining or sewerage system, using gurgling water sounds, metallic winds, breaking rocks, mechanical machine loops... where no traces of humans are to be found; great ultra dark musique concrete (no synthetic sounds used) !!*

Hiding Place (CD , 2016, Frozen Light FZL 036, €10) — *five long tracks recorded already in 2013 see now the daylight on Russian's "Frozen Light", feat. ELJARA (female singer of PRINZIP NEMESIS) and*

Narcoses (CD, 2017, Attenuation Circuit ACU 1012, €8) — *drops and rays of deep bass sounds and morphed frequencies build sluggish cascades of an eerie nature, only gradually structures appear which could form some kind of ultra slow motion rhythms, but the brain can hardly recognize this...one of the best EMERGE albums so far, a different kind of bleak ambience, any LUSTMORD fan should test this out! Materia (CD, 2019, Attenuation Circuit ACU 1014, €10) — *'paradigm shift' for EMERGE on this new release, the German project converges to rhythmic / sampled minimal IDM structures in a new way... Cruel Optimism (LP, 2017, Room40 RM470LP, €26) — *inspired by a text of LAURENT BERLANT with same title, this album with 10 stunning tracks by the Australian composer has a completely different approach than before: no field recordings were used and several guest musicians invited to contribute instrumental material - via file exchange or performed in real time; the result are gently overwhelming, orchestral, multi-layered drone pieces that sometimes dissolve into something unformed, reminding on TIM HECKER at times...*

Observation of Breath (LP, 2021, Hallow Ground HG2103, €21.5) — *for this album the composer used solely pipe organ recordings (made in a museum in Brisbane, Australia), but the result (4 pieces) sounds mostly very different from the usual "organ drone" music: very low & deep bassy, with rustles and pulses (breath?) as coming from a huge unknown species, slowly enfolding higher tones, whistling winds and larger scales for a "maximalist minimalism" sound... - "...it's a conscious meditation on unconscious processes"*

ISABELLA, JASPER & SIMON FISHER TURNER

Savage Songs of Brutality and Food (CD, 2020, Soleilmoon Recordings SOL 190CD, €14) — SIMON FISHER TURNER recorded the voices, noises and activities of his two kids for over 13 years, a kind of crazy / lovely "mixtape" (electronically / musically edited and enriched) made out of it: "This is a music/sound diary (perhaps) of the frankly mad, cute, annoying, moving, innocent, loud, loving, embarrassing, noises of their lives up to now, as recorded and messed up by me, as in messed-up-and-I-don't-care, but do I care... This is just STUFF. Wild and Alive." - lim. CD version

Hosshin No Kizashi [Experimental Music of Japan Vol. 5] (CD, 2010, Edition Omega Point OPX 005CD, €17.5) — most ambitious album of this long-time active composer from Osaka, Japan, oscillating between electro-underground & a "serious" composition approach => 5 excellent "acousmatic" pieces, using concrete sounds as well as purely abstract & amorph drones ... art-cover, lim. 500, 5th in the series "Experimental Music of Japan" by the well known OMEGA POINT label (known for many YOSHI WADA & JOHN CAGE releases) / BACK IN STOCK!

Trash, Rubbish, poor Works (CD, 2009, Neus-318 NEUCD-002, €12) — collection of unpublished works 2004-2006 from this Japanese composer, creating unusual (very experimental) ZEN drone noise, using many field recordings & electronic processing, often thematically focused on buddhist philosophy & religion; to discover !

Cleaner 583 (CD, 2016, Slow Down Records SDRSW06, €13) — this interesting Japanese composer (formerly active as DARUIN and BILLY?) has refined his style: slowly moving and inherently swirling ambient-scapes that also use undefinable abstract soundsources (probably from field recordings), there's always a certain unrealness involved in these mainly quiet expanses, higher resonances and smooth sub bass drones....after "tuning in" into these atmospheres a very rewarding experience... to discover !

Canceller X (CD, 2017, Kyou Records KYOU-001, €13) — excellent ISHIGAMI release on a new Japanese label: electro-magnetic charged drones are overwhelmed by metallic shimmering reflections and other unidentifiable, more concrete phaser-noises, breaks can be sharp but the development of tracks occurs in dreamlike slow-motion, eerie and unreal... thematically based around different kinds of "memories", and their cancellation, 14 tracks 69+ minutes, comes with fold-out text inlay (on Japanese) and 4 photo-inlays; highly recommended !!

[A-Z-B-MEN] (CD, 2017, Kyou Records KYOU-013, €13) — the following album to the great "Canceller X" is more dominated by hypnotic loops, and has much longer movements (3 long tracks), pervaded sometimes with high frequency electro whirrs and other circling sounds, often on the threshold to overdrive and creating strange angled frequency textures... especially when listened loud this has an

iridescent effect... 3 tracks, 71+ minutes, this Japanese composer is still very much to discover !

Archive Deleter (CD-R, 2019, Psoma Psi Phi , €13) — *"a three-part album of isolationist drone and formless void. Metallic tones with a reflective surface unspool glacially from an unreachable horizon. In one moment it feels meditative, and in the next, filled with a cosmic dread. Digging deeper, one could relate some of the sounds to distant machinery, piping off steam through bulbous steel veins, boring through alien black stone in an irradiated quarry, on some forsaken outer planetoid" - excellent amorph drone works, on US label (IMPORT), micro edition of only 36 copies !!*

ISHIGAMI, KAZUYA & TAMAKO KATSUFUJI

Electro Acoustic Fairy Tales (CD, 2018, Neus 318 - NEUCD009, €13) — *collaboration by the favored Japanese sound artist with female storyteller TAMAKO KATSUFUJI - her sweet voice is treated with electronic effects, the two fairy-tale stories "The Acorns & Wildcat" and "The Telegraph Poles on a Moonlit Night" (+ one version with different ending) are accompanied by weird sounds and drones, for a surrealistic "Alice in Wonderland" atmosphere... - a kind of experimental earplay in Japanese with fascinating effect !*

ISHIGAMI, KAZUYA / KENTARO TAKEI

split (CD, 2010, Neus-318 NEUCD-005, €13) — *split release (3 tracks each) - TAKEI's soft 'concrete field drone' sound reminds on stuff like DARREN TATE, whereas ISHIGAMI excites again with floating, refined digi-drones*

Sleeper (3 x CD , 2017, SIGE Records SIGE 057 , €22) — *a monumental three hour work made to fall asleep to, mirroring the strange condition between waking and sleeping: deep sub bass pulses and waves, organ-like harmonic layers, rough edged "chainsaw" drones with hypnotic effect, metal object clatter, all drenched in overtone resonances... Dirge (CD, 2021, Ferns Recordings stem_09, €12) — *two long pieces (almost 70 min.) created through "bowed grand piano and noise" - as the title suggests, this sounds very bleak and cold, as if the metallic parts of the piano have been blown up or set up under huge vibration... in fact: MENCHE wove long horse hairs in between the longest strings and bowed them.. => "Dirge was a very physical recording to make and therefore an album that truly needs to be heard physically loud and deep as possible." - CD version lim. 200*

Crater (CD, 2015, SIGE Records SIGE-043, €16) — *first full length collab. between 'UR-energy-droner' D. MENCHE and FAITH COLOCCIA's & AARON TURNERs project: "Glacial harmonic drones expand from field recordings, church organs, abraded stone & steel, and guitars only to be disrupted by heavily hammered piano melodies that in turn are gristlized by the collective noise strategies, machines, and snowstorms. Alternately, meditative and explosive, imposing and rapturous. Brilliant through and through."* [AQ]

MENS, RADBOUD & MATTHIJS KOUW

1 (LP, 2017, Moving Furniture Records MFR036, €16.5) — *like ELEH or PHILL NIBLOCK, a "pure drone approach"-album, but on this collab. by the two dutch sound artists, a very monotone / monochromatic drone starts to warp and develop harmonic 'bubbles' and resonances after a while that seem to be filled with independent life on their own, like slow dancers of shimmerings waves... the special beauty in here is only revealed after you crossed a certain threshold of time, and your mind... lim. 300*

2 (LP, 2019, Moving Furniture Records MFR056, €16.5) — *second "pure drone" collab by these Dutch artists, starting from almost nothing both long dronescapes evolve very nicely into a dance of pleasant micro-waves..."..continue their exploration of long-form drone. dR (CD, 2018, Editions Piednu PNO117, €13) — *it seems this is the first ever full solo CD by the French tape and object manipulator, who works completely analogue and concrete (tape recorder Revox B77, microphones, radios, objects, synthesizer Korg MS20, piano frame), creating dynamic collages, structures and surprising de-constructions from unusual sounds and noises, music and voice fragments, etc.. with the tape recorder becoming his main instrument; excellent, daring stuff !!*

Les Voix de L'invisible (LP, 2016, Bocian Records BC NxP, €17) — *this marks the first time JEROME NOETINGER was asked to "compose" a piece for a classical trained instrumental ensemble, he tried to let them sound like his reel to reel tape experiments and arrangements - the result sounds like nothing else, a deranged dissonant machine of unknown matter maybe, repetitive elements occur but it's not really minimal 'structured' music, like a broken "sampler" made out of classical instruments and noises... very special !!*

NOETINGER, JEROME AND ANTHONY PATERAS

A Sunset for Walter (LP, 2019, Penultimate Press PP43, €21) — *their first duo release: four excerpts from a highly interactive, three hour concert for piano and multiple Revox tape machines that happened during PATERAS residency at 'Schloss Solitude' in Stuttgart, June 2018; "Noetinger's tape manipulations range from nearly imperceptible shadowing of the live piano to anarchic bursts of rewinding tape, floating wisps of feedback, and dreamlike concrète interjections of children's voices and splashing water.. Herzblutanteil (CD, 2010, Waystyx Records w47, €15) — *back in stock this collector's item with VERY special packaging, released by Russian's legedary WAYSTYX label... it's more a remix + multiple recycling compilation of a basic IHR KINDERLEIN KOMMET (German traditional folk song from 1794), performed by RLW's little daughter Sonja); feat. 9 tracks from BRUME, A. COURTIS (REYNOLS), HOWARD STELZER, and more, it all still sounds incredible, a timeless and absurd journey; lim. 432*

copies in die-cut sleeve with 11 small inserts

Fall Seliger Geister (CD, 2013, Dirter Promotions DPROMCD94, €13) — *RLW continues his unique exploration into "unclassifiable" complex electronic music, finally a new full-length album, on the prolific DIRTER Promotions from UK; lim. 500 "japanese" mini-LP sleeve;*

Funeral Parties (LP, 2016, Musica Moderna MM014, €16) — *for his "Funeral Music" project RLW has taken sound snippets from the European tradition of composed Funeral Music (i.e.:ANTON WEBERN, HÄNDEL, SCHUBERT, PURCELL, SIBELIUS...) and transformed these with the help of BHOB RAINEY (saxophone sounds) into seven unsettling, deranged and fragmented tracks... => surrealistic, collaged music that sounds if it would come out of a very DIFFERENT dimension, intense !! Edition of 200 copies*

Flurry of Delusion (CD, 2016, Black Rose Recordings BRCD16, €13) — *"Nothing is quite what it seems to be" is the maxim of this new RLW-album, as usual it's difficult to describe or classify these compositions as they seem to exist between or beyond all known genres, but always keep a challenging and surprising experimental character; this is somehow chopped and scrambled music, consisting of strange sounds from instruments, objects, machines or electronics....*

Störungen (LP, 2016, Psych.KG Psych.KG 233, €20) — *after the great "Funeral Parties" LP here's another stunning work with a complete different focus: the sounds of 'resonating bodies' are used and transformed into crooked acoustic beauties, everything seems to be warped and heavenly deranged here, all related also to mental disorders.. lim. 150 copies; "Erneute musikalische Zuckungen führen zu Reibungsverlusten, durch Hirnrisse zischt und sirrt es, der azaphalische Körper leckt. Und vice versa. Kein Mensch ohne dys" [Bad Alchemy]*

Agnostic Diaries (CD, 2021, Black Rose Recordings BRCD 20-1016 / Dirter Prom. DPROMCD156, €13) — *highly abstract, unwieldy 'audio mind-scapes' full of demanding breaks and cuts, drones and weirdest sounds, voice processings, etc... extremely dynamic ! - RALF WEHOWSKY aka RLW proves he is still very capable of creating the most adventurous tunes and moods, MIRABILE DICTU! - "Upon repeated listening, there is every time something new to be found in this." [FdW/Vital Weekly]*

Tunnel (CD, 2021, Sonoris sns-20, €10.5) — *one of Germany's most hidden geniuses with a new work, working on female voice material as only sound source, Fasten your seat belts and enjoy! ' "Tunnel presents five pieces built using fragments of Annette Krebs's voice. Far from being anecdotal, the work reveals a true alchemy. Vocal prints are converted into roaring metallic textures lost in an endless sonic vortex, both sculptural and masterful. "*

Satanic Inventions (CD, 2022, Black Rose Rec. BRV 22-1021, €13) — *This album is the result of Ralf Wehowsky's (aka rlw) critical examination of COVID-19 as a cultural phenomenon and a comparison to the black plague of the Middle Ages: "Denial of reality, conspiracy theories, searching for scapegoats, etc." = a true festival or irrationalism, telling us more about the human mental state than about the pandemic. Condensed by rlw into 15 tracks, a challenging journey of heavy de-constructions, transformed drones, and treated source sounds = surrealistic musique concrete!*

RLW & DAS SYNTHETISCHE MISCHGEWEBE

Die Eisenbüglerin (do-CD, 2012, Auf Abwegen aatp 36, €17.5) — *first time collaboration by these two long standing experimental projects from Germany - the purest form of unclassifiable Anti-Muzak, not noisy at all but full of concrete sounding mysterions, both CDs (one finalized by RLW, the other by DSM) are just excellent;; lim. 300 in 12 x 12" cover*

RLW + SRMEIXNER

Just like a Flower when Winter begins (CD, 2013, Monotype Records mono060, €13) — *weird & very*

experimental but at times also beautiful droney collaboration recordings (2010-2013) by RALF WEHOWKSY (P16.D4) and STEPHEN MEIXNER (CONTRASTATE), going new paths using German poetry and masses of deranged german SCHLAGER & lots of other spoken word material mixed with all kinds of bizarre found sounds.. great collage/plunderphonic music where anything can happen in the next few seconds.... funny, surrealistic, mind-explosive !

RLW / PAAK

Klingelbeutel (LP, 2012, permaREV Platten 030, €17.5) — *collaboration between RLW (P16.D4) and PAAK (Peter Kastner) on the theme "religious mania", using recordings of prayers & christian propaganda to create bizarre collages; edition of only 154 copies, incl. original paper from a hymn-book & other inlays*

Zur Arbeit I (LP, 2016, Attenuation Circuit ACW 1004, €17) — *already the third collaboration by RLW with PETER KASTNER aka PAAK, this time on the subject WORK: on three pieces called "Schnaps" (booze), "Kantine" (canteen), and "Gerberei" (tannery) they distill the typical sounds from these "areas" of work in the 19th, 20th, and 21th century with a sarcastic and at times dadaistic approach, using harpsichord, mellotron, rhythmbox, voice and field recordings; a very curious record to say the least !! Lim. 300 colour vinyl & inlay*

RLW / RICHARD FRANCIS

R (CD, 2023, Auf Abwegen aatp88, €13) — *many years ago RICHARD FRANCIS (ew Zealand) released as ESO STEEL a fine EP in our 7" series (DR-49, 2001) with amorphous, mysterious dronings, only 22 years later this collaboration with RLW sees the daylight, based on sessions they did in 2013 when R. FRANCIS had a scholarship in WORPSWEDE, northern Germany.. => analog and digital sounds merge, guiding you through minimal landscapes of micro-noises; from two masters of 'sidetone awareness' compositions..*

Nemeton (CD, 2015, Winter-Light WIN 003, €13) — *"In the ancient Celtic tradition, a Nemeton was a sacred space, primarily situated in natural areas, often sacred groves of trees" - dark romantic ambience over full 70 minutes, similar to the great EP for Drone Records, "The Lake" (2007)... drone minimalism with much emotion & depth..*

Eis (CD-R, 2015, Mbira Records mbira 93/73 mbnt., €12) — *a monochrome sound-entity that can be located in the loneliness of the mind, in the mountains of the own brain = in cold delusion (as the german info puts it) => extremely bleak drone- & fogscapes with twinkling shimmers, wide & borderless, we love it ! Zwischenwelten (CD, 2016, Winter-Light WIN 006, €13) — *this release shows SEETYCA further exploring and enhancing romantic 'intermediate worlds', for the nine compositions diverse guest-musicians (THOM YEESLAND, JULIAN ECKSTEIN, KRIS CAELIS) helped and many 'real' instruments were used (ocarina, zither, acoustic guitar, trombone), forming gracious, deeply multi-layered drones full of beauty and width, with tiny sounds and micro harmonies appearing.... definitely one of his masterpieces, 79+ min. playtime*

Mbira 2: Facades (CD-R, 2017, Mbira Records mbira 100/79 mbnt, €12) — *Installation Music for a concert at Stadtbibliothek Gera, Germany, Sept. 2015 => various sound sources from previous mbira releases shape a long, 80 min. dense, anti-monotonous dream-ambient piece, going through various stages and atmospheres, a phantastic journey! this handmade edition comes with laminated colour cover and manually labeled CD bodies*

Seetyca 2 (CD-R (MP3!), 2002, Mbira Records mbira 0002/2 xprmntl/1 mbnt , €18) — *the second ever SEETYCA release from 2002 contains 4 hours (!) of material on MP3, among the 4 tracks are the ultra*

long "Dionysospassage" (107 min.), and "Borobudor Processoin" (117 min.); this was the time when seetyca began to construct very long, underworldly, transcending pieces with repetitive and percussive character for big halls or exhibitions, reminding on old HYBRYDS for example... highly recommended! comes w. handmade / laminated cover

Seetyca 3 (CD-R, 2002, Mbira Records mbira 0003/3 xprmntl , €12) — *the beginnings of SEETYCA were very daring and (using granular synthesis) electronic, "seetyca 3" contains probably the most experimental material we know, a maxi-CD (4 min) with two short tracks, plus a 74 min (!) hidden track => pure sinus / electronic tone sounds and formations, processed and morphed endlessly, creating incredible strange sound figures when they collide..... comes on a handmade laminated & labeled CDR*

Remnants of Carbon Beauty (do-CDR , 2005, Mbira Records mbira 0040/26 mbnt , €19.5) — *the audio material on CD 1 was recorded for a CD-ROM project of the paleontologic museum of the university of Tübingen, CD 2 contains "remnants of the mesozoic", again seetyca imagines and immerses himself deeply into the pre-historic aeons of our planet earth, when human existence was thousands of years away... comes with laminated colour cover & hand-labeled CD-bodies*

Seetyca 4 (CD-R, 2002, Mbira Records mbira 0006/2 mbnt/1 lctrc , €12) — *the fourth proper early SEETYCA release (recorded 2002) leads into already more droning and spheric areas, without losing it's touch for true experimentation; 7 tracks with the central "PHLOX" (25 min), pure electronic landscapes that build bubbles and waves with subtle explosions underneath, repetitive glitch sounds with weird quasi-beats, loops that fray out and become porous... not the usual ambience here at all, comes with laminated colour cover & hand-labeled CD-bodies*

Remnants of Silurian Beauty (CD-R (MP3!), 2002, Mbira Records mbira 0007/3 mbnt, €14) — *extended MP3 - edition (108+ min. playtime) of this long, dark meditative piece setting the listener into a pre-historic aeon, using lots of animal samples and metallic drones, bell sounds and coirs; a wondrous, mysterious piece and atmosphere... this extended edition has 30 min. bonus material (two pretty experimental pieces with studies of the same basic material) not on the first edition; comes with laminated colour cover & hand-labeled CD-bodies*

Dühringa Aorta 2 (CD-R, 2007, Mbira Records mbira 0055/41 mbnt , €12) — *following album to the great "Dühringa Aorta" from 2005, now the voice of seetyca is the only sound source for seven new tracks, which is hardly believable => repetitive forms of beatless phaser tube sounds, subtle harmonic tone elevations, kind of bell-ringing acoustics, and cryptic titles such as "Guyrolaisthan" or "Sæquoina"; this album shows impressively seetyca's ability to create a very own kind of oneiric ambience drift.. one of our favourites, highly recommended!*

Dühringa Aorta 3 (CD-R, 2012, Mbira Records mbira 0079/60 mbnt. , €12) — *five years after pt. 2 this is the third part in the favored "Dühringa Aorta" series, again all seven tracks are based entirely on voices (by seetyca himself, MARI SOLARIS, and the OPEN VOICES CHOIR, Hamburg) - ultra spheric voice drones and walls merge with digital sounds and arrangements.... comes with laminated colour cover & hand-labeled CD-bodies*

Winterlicht (CD, 2017, Winter-Light WIN 011, €13) — *"A Drone in my Head" - already the third SEETYCA album for Winter-Light, dedicated to winters light and snowy landscapes, a perfect background for SEETYCA's skills to create lengthy, cold-melancholic (but not depressive) ambient clouds, almost 80 min playtime... "The play between light and dark, the subtle use of environmental sounds and carefully chosen instruments, played by a stellar array of Seetyca's friends, is what makes this album truly engaging."*

Trances (CD, 2019, Winter-Light WIN 022, €12) — *the sequel to the "Zwischenwelten" CD - "a blend of electronics, wind instruments and acoustic elements immersing into an alienating, profound mysterious and dark netherworld with an occasional abstract/experimental edge. Lovely echoes of SCHULZE's*

'Mirage' surface beautifully but briefly, while the sonic fingerprint of ROBERT RICH comes to mind as well as haunting/gothic-ish ambiences at other passages as it travels into the beyond... [Sonic Immersion] lim. 200 copies only

ZYLO, ARVO

UPHEAVAL (CD-R, 2019, NO PART OF IT , €9) — *some years ago ARVO ZYLO constructed a drone piece out of "layered samples from pop divas holding sustained notes", and made 100 different versions out of it; this CD-R contains versions # 93 to # 99, interestingly shaped drone noise loops.. " At various times these transformations are taken to the extreme, enter Zylo's love for noise, with loops and sounds from the conveyor belts of an industry in decay, but also decay of a more subtle origin can be spotted.. " [FdW/Vital Weekly]*

333 (CD, 2023, NO PART OF IT , €5.55) — **..A cyber punk thrill ride* - updated version of an older ARVO ZYLO album with broken electronic synth and noise tones in strange arrangements, sequences, loops, quasi rhythmic, spiral drones, very dry, loud and direct into the face... - "totally assaulting music without actually relinquishing the conventional rules of what music should be." - three long tracks with countless changes and twists, about 60 min. playtime; lim. 300, 6 panel digipak with nice collages, special low priced !!*

Two Events (LP, 2009, Waystyx Records WAYSTYX41, €16) — *Waystyx goes vinyl! Fabulous release by the dutch project around MARS WELLINK, numb. ed. of 200 copies comes with huge poster-cover & postcard. Atmospheric collage-music at its best !*

24 (10inch, 2011, Substantia Innominata SUB-15, €12) — *the Dutch master of loopy trance-inducing collages (ex VANCE ORCHESTRA) has collected field recordings from a full day of his existence and processed them to form an atmospheric travelogue. The aural world seen from a subconscious perspective. Great cover-collage by ROBERT SCHALINSKI (COLUMN ONE) and TOM PLATT. 500 copies pressed in "flamed solid white & black" colour. OUT NOW*

Unseen Intelligence (mCD-R, 2012, Taalem alm88, €5) — *'Unseen Intelligence' is the following release after the great [AD]VANCE[D] 10" for Substantia Innominata - again a suspenseful and very atmospheric collage-construction using lots of object and found sounds, backwards-effects, fragmented voice-material, strange scraping sounds, etc.. very best dark and droney musique concrete, reminding on BRUME, ILLUSION OF SAFETY, or even LIONEL MARCHETTI.. highly recommended ! - new non jewel-case ed. now*

Inspiration (CD, 2008, Ant-Zen act224 , €12)

Solitaire (CD, 2009, Raubbau RAUB-008, €6) — *7th album for the dutch drone-project; thematically based around "memory", more melancholic & refined as before, their best album yet !! "Solitaire's threatening and oppressive mood will leave you in a state and in a place where you haven't been before. A new reality which is more than the sum of its parts.." - back in stock, special priced*

Field of View (CD, 2012, Ant-Zen act282, €13.5) — *the latest album by the dutch "experimental drone"*

project comes as a surprise, incorporating female singing & spoken voice & slow minimal rhythmic elements with the typical atmospheric drones...

Innovation (CD, 2018, Raubbau RAUB-069, €13) — *the project of MARTIJN PIECK (who is also active as WOODBENDER), and BAUKE VAN DER WAL from Utrecht, NL, working together now for about 25 years, tried to find new pathways with their 'extreme drone-minimalist' project, "Innovation" sounds indeed more raw and is covered with more atmospheric noise as before, when you get the impression of following breathing machines.. you haven't heard them ever so 'archaic' and mind-dissolving.. 7 tracks, 56+ min.*

Tess (mCD-R, 2021, Taalem alm 141, €5) — *a stunning 20min. drone one-tracker from the [LAW RAH], starting soft as cotton wool, warm and lonely, developing into something more loopy and enriched with subtle object recordings adding somehow 'metallic' nature... a very immersive piece, excellent and not to be missed !! // NEW ED. WITHOUT JEWEL-CASE!*
